

DOT EXAMS

Effective May 21, 2014, interstate commercial drivers are required to use a medical examiner listed on the National Registry of Certified Medical Examiners for their DOT exams and medical certificates. *

The National Registry program creates additional requirements for Medical professionals. We understand ease of access to these exams is imperative to your operations. DOT exams will continue to be offered at the Stillwater Billings Clinic.

For more information on the FMCSA guidelines visit nationalregistry.fmsa.dot.gov
